To people who require immediate energy, also during intense sport sessions.

- To those looking for a fast absorption product and able to give energy

### INFORMATION

Coffee represents a pleasure of the palate, a sweet habit for a break, but also a classic drink used when the body needs an additional incentive. Traditional coffee, sweetened with sugar, creates a quick energy response, but also high glycemic index and rapid consumption. Sport Coffee combines best coffee tradition and experience gained being beside athletes and their needs for a lot of years. We used our knowledge of the most effective energy base to sweeten a concentrated coffee. The result is a powerful coffee, with high content of caffeine and carbohydrates-based able to compete with the best energy gel. This is the real news: we made a good coffee and boosted it with sequential carbohydrates and caffeine. The result is a special product for people who play sports: coffee taste with the energy of 4 different carbohydrates.

### FEATURES

Sport Coffee® contains a selected mix of coffee and it's energized with carbohydrates with different assimilation speeds. The simultaneous presence of fast carbohydrates (fructose and dextrose) and slow carbohydrates (maltodextrin and isomaltulose) gives to the product availability to be consumed during intense physical activities and/or long duration. The product mixes coffee pleasure with the energy of a high quality energy supplement. Caffeine (85 mg/25 ml) , which is contained in this product, contributes to increase mental lucidity and improve concentration. This product does not contain gluten (Gluten Free), therefore is suitable also for people suffering from celiac disease or gluten intolerance.

### HOW TO USE AND RECOMMENDED DAILY DOSE

From 1 to 2 pack per day during sport activities or as needed.

### INGREDIENTS

Water, maltodextrin, fructose, dextrose, isomaltulose, lyophilized coffee (3%), acidifying agent: citric acid, caffeine, natural flavouring: coffee.

### WHEN TO USE SPORT COFFEE®

Warnings: do not exceed the recommended daily dose. Keep out of reach of children under the age of 3. Supplements are not intended as substitutes for a varied, balanced diet and a healthy lifestyle. It contains caffeine (85mg/25ml). It is not recommended for children and during pregnancy and breast feeding. It is recommended do not exceed a daily intake of 400 mg of caffeine from all sources. Do not use in conjunction with alcohol and tobacco and in case of caffeine sensitivity. Do not expose to heat sources. This product is tested free from Nandrolone and Testosterone with their precursors, free from amphetamines and ephedrine.
