INFORMATIONS

Good training strategy needs muscles to be well-fed following any intense activity. An adequate supply of supplementary proteins allows you to rebuild lean mass potentially damaged by intense activities and avoid the breaking down of muscle tissue. Staying fit can be incredibly difficult. The right diet will allow you to carry out physical activity while maintaining high energy levels and providing just the right nutrients for regenerating and building-up muscle tissue.

FEATURES

EXTRA CROK® is a high protein bar with extremely pleasant taste and excellent digestibility, all thanks to its top quality ingredients. Provides 33% protein. Only 3,3% and 3,6% sugar and an optimal amount of fibre. The product is totally free of gluten, hydrogenated fats and palm oil. The EXTRA CROK® line is ideal for rediscovering the taste of keeping fit.

HOW TO USE AND RECOMMENDED DAILY DOSE

1-2 bars a day, accompanied by water. Use as needed as a hunger breaker. Ideal after intense muscular effort or at least 1 hour before physical activity.
