

HIGH PROTEIN WAFER

HIGH PROTEIN BAR

HIGH PROTEIN BAR

- 32% MILK PROTEIN
- EXCELLENT TASTE
- OPTIMAL DIGESTIBILITY

- COLLAGEN FREE
- HYDROGENATED FAT FREE

INFORMATION

It is known that intensive work programmes require specific food strategies to support involved musculature. Protein supplementation is the most appropriate strategy for rebuilding lean mass potentially damaged by intense work, because it reduces the process of muscle catabolism. It is also known that a proper diet allows you to carry out athletic activity with energy and to provide the right nutrients to regenerate muscle tissue. Remaining in shape, reconciling work and family life with the practice of sport, is a complex issue to manage, however it is possible to make the right food choices with a well-balanced intake of micro and macro nutrients.

FEATURES

HIGH PROTEIN WAFER is a high protein food with an excellent taste and optimal digestibility. It does not contain collagen and hydrogenated fats. It contains 32% milk protein.

INDICATIONS

HIGH PROTEIN WAFER is designed for those who train hard or have an active life. The proteins contained in the product contribute to the maintenance of muscle mass. HIGH PROTEIN WAFER is also an excellent solution for a quick, digestible snack before or after training, suitable to offer a protein quota to our body quickly.

HOW TO USE AND RECOMMENDED DAILY DOSE

1-2 bar per day, with some water, preferably after muscular exertion, or at least 1-2 hours before exercise.
