MARINE COLLAGEN

WITH HYALURONIC ACID AND VITAMIN C

DIETARY SUPPLEMENT BASED ON HYDROLYZED MARINE COLLAGEN, HYALURONIC ACID, AND VITAMIN C

INGREDIENT ACTIONS

With Hydrolyzed Marine Collagen

For the normal formation of collagen and the maintenance of physiological function of the skin and connective tissues.

FEATURES

Marine Collagen + Hyaluronic Acid + Vitamin C is a dietary supplement in capsule form, formulated with hydrolyzed marine collagen peptides, hyaluronic acid (sodium hyaluronate), and vitamin C, intended to support the body's nutritional needs.

Vitamin C:

- · contributes to normal collagen formation for the proper functioning of skin, gums, and teeth¹²³⁴.
- $\boldsymbol{\cdot}$ contributes to protecting cells from oxidative stress $^{\!1}\!.$

This formulation may be useful in cases where one wishes to supplement specific structural components present in connective tissues, particularly skin and joints, within a healthy lifestyle.

RECOMMENDED FOR

- Those wishing to support the physiology of skin, gums, and connective tissues
- Those attentive to maintaining normal skin function over time
- Those with increased collagen needs due to age, lifestyle, or diet
- Those engaging in activities that stress joint and connective structures
- Those seeking a complete formula with marine collagen, hyaluronic acid, and vitamin C

MARINE COLLAGEN

WITH HYALURONIC ACID AND VITAMIN C

DIETARY SUPPLEMENT BASED ON HYDROLYZED MARINE COLLAGEN, HYALURONIC ACID, AND VITAMIN C

INFORMATION

Collagen is a structural protein naturally present in the body. It is a fundamental component of connective tissue and is found in skin, cartilage, bones, tendons, and ligaments. With age, the body's collagen production tends to decrease: supplementation with hydrolyzed collagen peptides provides amino acids readily available for intestinal absorption. Hyaluronic acid is a substance naturally produced by the human body, known for its

ability to retain water in tissues. It is present in the dermis, synovial fluid, and other biological structures. Physiologically, it helps maintain adequate hydration and viscosity of soft tissues. The substances contained in the product do not replace therapeutic treatment but may contribute to completing the daily nutritional intake of elements involved in connective tissue physiology.

INDICATIONS

Marine Collagen + Hyaluronic Acid + Vitamin C is a dietary supplement formulated to supplement structural components of connective tissues. Thanks to the presence of vitamin C, it contributes to normal collagen formation and the maintenance of the physiological function of skin, gums, and teeth. Vitamin

C also plays a role in protecting cells from oxidative stress. The formula is particularly indicated in cases of increased need or reduced intake of nutrients involved in skin and connective tissue physiology, such as in physiological processes related to aging or in situations of particular stress.

HOW TO USE AND RECOMMENDED DAILY DOSE

Take 1 dose (4 capsules) daily

INGREDIENTS

Hydrolyzed fish collagen peptides, bulking agent: hydroxypropyl methylcellulose; hyaluronic acid (sodium hyaluronate), L-ascorbic acid (Vitamin C), anti-caking agent: magnesium salts of fatty acids.

AVERAGE CONTENT	
	PER 4 CAPSULES
Hydrolyzed Fish Collagen Peptides	2200 mg
Vitamin C	80 mg (100 %**)
Sodium Hyaluronate	120 mg

NRV: nutrient referencevalues (adults) according to EU Reg. 1169/2011

Warnings: Do not exceed the recommended daily dose. Keep out of reach of children under 3 years old. Dietary supplements should not be considered a substitute for a varied and balanced diet and a healthy lifestyle. For use during pregnancy and breastfeeding, in children, or for prolonged periods, consult a healthcare professional. Store in a cool, dry place. Avoid exposure to localized heat sources and sunlight. The minimum

shelf life refers to the product correctly stored in an intact package. Do not dispose of in the environment after use. Produced in a facility that uses milk-based ingredients (including lactose), soy, peanuts, other nuts, sesame seeds, eggs, crustaceans.

*The product is tested free of anabolic steroids, stimulants, and SARMs..
